Movement

# INTRODUCTION

As LGBTIQ persons, we are defined by more than our sexual orientation, gender identity and sex characteristics. Being an LGBTIQ organisation, we sought to highlight those proposals made by all parties\* in their electoral manifestos which directly impact LGBTIQ rights, or which formed part of the Coalition's Election Proposals.

This document emphasises proposals made, and is not an endorsement of any political party.

Finally, we feel that casting our vote in general elections brings our year-round activism to a full circle. We urge you to do the same.

\*Other parties whose mission fundamentally differs from MGRM's are not included in this document.
